## Professional Experience

---

### Systems Analyst

2021 - present

Saneamento de Goiás S.A. - Goiânia, Goiás - Brazil

- Developed multiple Java (Spring Boot) REST APIs, and Angular applications;
- Created a browser extension to enhance third party systems with Typescript;
- Developed RPA scripts with Node.js and Puppeteer.js for automated report generation;
- Led internal audits on authorization levels and special permissions across all systems;

Stack: Java, Spring Boot, Angular, JavaScript, Node.js, TypeScript, Puppeteer, SQLite, IBM Db2, JSF

### Full-Stack Developer

2019 - 2021

EasyCrédito - Goiânia, Goiás - Brazil

- Architected a whitelabel structure, reducing deployment time for new products from days to minutes;
- Developed and maintained Ruby on Rails applications, Grails REST APIs and a mobile app using Ionic;
- Worked closely with the UX and Support teams on UI performance to reduce churn rates in ~50%;
- Led the development of a custom push notification microservice with Firebase Messaging;
- Developed web crawlers and RPA scripts with Node.js, Puppeteer.js and Python;

Stack: JavaScript, Ruby on Rails, Groovy, Python, Ionic Framework, Grails, PostgreSQL, JQuery, SASS, Node.js

### Full-Stack Developer (Consultant/Freelancer)

2012 - 2023

Remote / Goiânia, Goiás - Brazil

- Provided services as a consultant and contractor for various companies.
- Developed a wide range of full-stack applications, admin panels, ERP systems, corporate websites, custom Wordpress themes, and hybrid mobile apps;
- Development of REST APIs, data processing from third-party APIs, database management, and RPA scripts

Stack: JavaScript, Angular, React, Node.js, TypeScript, Puppeteer, Java, Spring Boot, Python, Wordpress, PostgreSQL, MySQL

### Senior Front-End Developer

2017 - 2018

Actuar Sistemas - Goiânia, Goiás - Brazil

- Established standard architecture for all applications using Angular, Bootstrap, DevExtreme, and OData.
- Responsible for rewriting and scaling down the size of the mobile app in ~85%;
- Lead a rewrite of all front-end applications, improving performance, code organization and maintainability;

Stack: JavaScript, Angular, AngularJS, Chart.js, Bootstrap, Ionic, TypeScript, SASS, DevExtreme, OData

### Front-End Developer

2016 - 2017

Universidade Federal de Goiás - UFG - Goiânia, Goiás - Brazil

- Developed an admin panel in Angular.js with Angular Material, using Firebase Real Time Database;
- Developed a PWA (*progressive web app*) version for the university's official app;

Stack: JavaScript, Angular, AngularJS, Angular Material, SASS, Firebase, Google Maps API.

### Front-End Developer (Intern)

2015 - 2015

Mounza - San Francisco, California - USA

- Developed new features for a client facing admin panel with Angular.js, SASS, and Django;
- Designed and implemented multiple landing pages and templates for email marketing;

Stack: JavaScript, Angular.js, Python, Django, SASS
